

THE ART OF RESPONDING

IF YOU ARE NOT TRAINING, YOU ARE NOT READY

We have all taken the initial training required for Levels 1 or 2 KCCRT membership. That includes staff. That is **JUST THE BEGINNING**. For some of us, the beginning was over 10-20 years ago! That initial training is certainly not enough to keep us prepared to do the interventions the way they are to be done today.

This is why **Quarterly Regional Team Trainings** and the **Annual Conference** are so very important. We get updates, additional training, and hone our skills. Most importantly, we get to know our team members and build working relationships that can add to the success of any intervention.

It is also helpful to **retake a class** you have taken 3-4 years before. Everyone benefits. You get a refresher, and everyone gets the opportunity to learn from each other. (Note: Don't register for a course unless you plan on being there. Even though you don't have to pay for it, KCCRB pays for the materials.)

So, how long has it been since you've been at a regional team training? Do you have the Intervention Pocket Guide and USB Resource Drive? If not, it has probably been over a year.

Do you know there is a specific Confidentiality Statement used in interventions now? If not, it has been over two years.

The Annual Team Conference includes all members from the entire state at one Conference. If you thought it was still just half the regions at a time, it has been almost 3 years.

It has been over 9 years if you don't know the Executive Director is Deborah Arnold? You are way over due for additional training! (How did we let THAT happen?)

The point is, if we all are not participating in training on a regular basis, we cannot be ready to provide the services KCCRT offers in the aftermath of some really tough incidents and disasters. **Please plan to get into some training in 2017!**

Development is NOT an event. It's a continuous, lifelong process, necessary for the health of both the organization and individual.
